P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Election of Species Requirement mailed to the undersigned in the subject U.S. Patent application on December 7, 2005, applicant, through the undersigned attorney, elects to prosecute with traverse, in this application, the species of group (b) in the event that no generic claim is finally held to be allowable. Applicant asserts that group (c) and group (d) are sub-species of group (b). In the event that no generic claim is finally held to be allowable, Applicant submits that group (c) and group (d) would be allowable if it is determined the group (b) is allowable. It is believed that claims 1-22 are generic.
